

## BLOCKS

Be it a block or a forged square bar, the high quality of our materials, together with the added value steel gets from being forged, give this product high resistance and ductility, making it a better choice than castings or plate.

## MANUFACTURING CAPABILITIES

Range	Length up to 430 in.
	Weight up to 77,000 lb.
Material	Carbon Steel, Alloy Steel, Tool Steel, Stainless Steel.
Heat Treat	Normalizing, Quenching, Tempering, Annealing, Solution Annealing, Spheroidizing, Aging, Stress Relieving.
Testing	Destructive and Non-Destructive.
Machining	Available CNC machining capabilities: vertical & horizontal turning, milling, boring, drilling, deep drilling.
